

# FAU 710

## Exhaust ventilator

The FAU 710 exhaust ventilation system from DACS is a modular based system. The modules are made out of a strong, highly insulated PU (polyurethane) composition. A very flexible system where the modules are easy to stack and easy to fit into any given building.

All exhaust systems from DACS are shaped in the most aerodynamic way and equipped with a highly efficient motor that ensures high air exchange rates with very low energy consumption.

The modular based FlexAir exhaust system is an easy to install, strong and reliable unit that can be used in any type of ventilation set-up.

Balanced ventilation

Negative pressure systems

Curtain sided houses

The FAU 710 exhaust unit is available with 3 different capacities:

### Technical specifications

	Motor 3 x 230 / 400V	1,10 A	1,90 A	2,85 A
	Shaft output power	0,3 kW	0,6 kW	0,9 kW
Fan 920 RPM	Volume Flow at 0 Pa	13.000 m <sup>3</sup> /h	18.000 m <sup>3</sup> /h	21.500 m <sup>3</sup> /h
	Fan blade pitch	32,5°	45°	45°
Tube	Diameter	760 / 710 mm	25 mm mat.thickness	
Damper	Diameter	710 mm		
Material	PU (polyurethane) and stainless steel			
Fasteners / brackets	Stainless steel AISI 304 / A2
